

Let's Investigate

5, 6, 7

Investigate using the numbers above to complete the subtraction below in as many different ways as possible.

$$9.8 - \square.\square\square$$

Find the answers.

Arrange the answers in pairs, each with the same total.

Now investigate this subtraction.

$$9.8\square - \square.\square$$

White Rose

Gina makes a 5-digit number.

Mike makes a 4-digit number.

The difference between their numbers is
3,465

What could their numbers be?
