

Postcard from my teacher

Dear Silver Birch, Lovely to hear from some of you again and to see an amazing power-point creating a settlement, that one of you had worked so hard on. I was pleased to see it had a Costa in it! It's good to see that although you are not at school you are still learning and being really creative. I finished painting my house and am very pleased with the results. Guess who walked through a tray of paint and had to have her fur trimmed?! In the picture you can see Twinkle was also caught enjoying the crumbs of a chocolate cookie! Truffles diet is going well. Already he is more active though he always looks disappointed when he is given broccoli instead of his toast – I can't understand why! Otis is very happy though in trouble this morning for weeing on Molly's bed! He was put straight back in his cage to reflect on his actions. He doesn't look overly bothered, does he? Look after yourselves and will be in touch again soon. With love, Mrs Mason xx
