

# What are Roman numerals?

$I = 1$     $V = 5$     $X = 10$     $L = 50$   
 $C = 100$     $D = 500$     $M = 1000$

If  $I = 1$  then what is 3?

If  $X = 10$  what is 20?

If  $L = 50$  what is 70?

How do we make these numbers?

22=

8=

76=

310=

What is 4? (one less than 5)

How about these numbers then?

9=

40=

90=

400=

900=

Try working out these numbers:

XIX=

LXV=

CCXL=

MMD=
